

2013 President's Award

The President's Award is presented once a year to the employee who best exemplified the KMG Core Values. The nomination and selection process involves committee members from KMG sites globally. In addition to being recognized as the President's Award recipient is also awarded a vacation valued at \$10,000 USD.

It is with great pleasure we announce that our fourth annual President's Award winner is:

Mauro Facchinetti, Lab & Technology Manager (Italy)

Mauro was nominated by his peer group, and after a rigorous selection process he was unanimously chosen from over 700 employees. Mauro exemplified the KMG Core Values through his attention to detail, his dedication to customer service, his ability to problem solve and his demonstrated respect for others.

The official presentation to Mauro was made on February 11, 2014. Chris Fraser personally recognized and presented Mauro with the award in front of the global leadership team while attending the Values meeting in Houston, Texas.

Mauro's support, demonstration and dedication to the KMG Core Values is evident in his daily work and thus worthy of the recognition.

We all wish Mauro and his family a wonderful trip to the destination of their choice.
Congratulations, Mauro!

Chris Gonser
Vice President Human Resources
